

(REPORT)

High Economic aid will result in Low Economic Loss

In above chart we can see If we pump more money through aid

Like – 1) preparing teams for emergency to evacuate people

2) Awaring people about how to stay safe in time of emergency

3) Investment on Infrastructure

4) Emergency Drills

From above chart we can see more aid will reduce economic damage

TSUNAMI

In above chart

We can see despite 11 tsunami it contribute to 7% of Economic Damage

- 1) Tsunami only takes place rarely with Severe level Earthquake
- 2) Total no of Severe earthquakes are 95 and 11 with tsunami, in 11 earthquakes no of damage is far greater than normal
